

Smart Curriculum Activity & Attendance App

Batch Number: CSE_109

Roll Number	Student Name
YASHAS RAJ S	20231CSE3019
RAKSHITHA REDDY KS	20231CSE3089
SACHIN KUMAR SAROJ	20231CSE3018

Under the Supervision of,

Dr.ChandraSekhar M
School of Computer Science and Engineering
Presidency University

Name of the Program: **EduTrack**

Name of the HoD: **Dr. Asif Mohammad**

Name of the Program Project Coordinator: **Dr.ChandraSekhar M**

Name of the School Project Coordinators: **Dr. Sampath A K , Dr. Geetha A**

Problem Statement Number: SIH25011

Smart Curriculum Activity & Attendance App

Category (Hardware / Software / Both): Software

Problem Description:

Develop an integrated mobile/web application that automates curriculum activity tracking and student attendance management. The system should provide real-time monitoring of student participation in academic and co-curricular activities, generate comprehensive attendance reports, and facilitate better academic planning and student engagement tracking. The solution should be scalable, user-friendly, and integrate with existing educational management systems.

Project Object:

- Automate Student Attendance Management
- Digitally Track Curriculum Activities
- Improve Academic Transparency and Accountability
- Centralize Academic Data Management
- Enable Data-Driven Academic Decision Making
- Support Data-Driven Academic Decision Making
- Improve Faculty Efficiency and Time Management

No announcements yet

EduTrack –Announcements Module – Post Announcement Interface

The Announcements module enables teachers or administrators to create and share important updates efficiently within the EduTrack system.

Key Features:

- Post New Announcement Form: Allows users to enter a title and detailed message for communication.
- Priority Selection: Enables classification of announcements (e.g., Normal, Urgent) for better visibility.
- Target Audience: Option to choose recipients such as all users or specific groups.
- User-Friendly Interface: Clean card-based design with clear input fields for ease of use.
- Action Button: “Post Announcement” button to instantly publish updates.
- Empty State Handling: Displays a placeholder message (“No announcements yet”) when no announcements exist.

Purpose:

This module centralizes communication, ensuring timely and organized dissemination of information across students, parents, and staff.

EDU TRACK –Student Response Review

The Quizzes module provides a detailed interface for reviewing student performance and responses for a specific quiz.

Key Features:

- Quiz Overview: Displays subject (Math), number of questions, and quiz title (Algebraic Equations Review).
- Student Response Tracking: Shows individual student submissions with name and submission date.
- Score Display: Highlights the student's total score (e.g., 100%) for quick evaluation.
- Detailed Answer Review: Lists each question along with the student's submitted answers.
- Question Types: Supports both objective (numerical answers) and subjective questions.
- Navigation Support: "Back to Quizzes" option for easy movement between quiz listings.

Purpose:

This module helps educators analyze student understanding, evaluate performance, and provide feedback based on detailed response data.

EDUTRACK –Student Results Overview

The Examinations module provides a comprehensive view of a student’s academic performance across different examinations.

Key Features:

- Student-Centric View: Displays results for an individual student (e.g., Aarav Sharma).
- Exam Categorization: Separates results into Midterm and Endterm examinations for clarity.
- Subject-wise Performance: Lists subjects along with scores out of 100.
- Grade Representation: Uses grade indicators (A-, B, etc.) with visual tags for quick understanding.
- Date Tracking: Shows the date of each exam for chronological analysis.
- Structured Layout: Table-based format ensures clear and organized presentation of academic data.

Purpose:

This module enables both teachers and students to track academic performance, identify strengths and weaknesses, and support data-driven academic improvements.

Examinations Module – Hall Ticket Generation

[illegible]

Examinations Module – Hall Ticket Generation

The Examinations module includes a dedicated interface for generating and managing student hall tickets for exams.

Key Features:

- Hall Ticket Display:
 - Shows a structured and official exam hall ticket with institution branding.
- Student Details:
 - Includes student name, grade/class, and roll number for identification.
- Exam Information:
 - Displays examination type (Endterm Examination 2026) and exam center details.
- Examination Schedule:
 - Provides subject-wise schedule with date and time (partially visible).
- Action Buttons:
 - Options to switch between Results and Hall Ticket views.
- Print Functionality:
 - “Print Hall Ticket” button allows easy download or printing for offline use.
- Professional Layout:
 - Clean and formal design suitable for official academic documentation.

Purpose:

This module streamlines the process of hall ticket generation, ensuring students have easy access to essential exam details in a standardized format.

Payments Module

The Payments module provides administrators with a comprehensive overview of student fee collection and pending dues.

Key Features:

- Financial Summary Cards:
 - Displays total collected amount, total pending dues, and number of fully paid students for quick insights.
- Student Payment Tracking:
 - Lists all students along with their payment status (Paid, Partial, Due).
- Amount Due Information:
 - Shows pending fee amounts along with last payment dates.
- Status Indicators:
 - Color-coded labels (green for Paid, yellow for Partial, red for Due) improve readability.
- Parent Contact Details:
 - Includes phone numbers and email IDs for easy communication regarding payments.
- Structured Table Layout:
 - Organized columns for Student, Status, Amount Due, and Contact details.

Purpose:

This module helps institutions efficiently manage fee collection, monitor pending payments, and maintain clear communication with parents.

Payments Module – Student Payment Interface

The Payments module provides students with a seamless interface to view fee details and complete payments using multiple methods.

Key Features:

- Current Dues Display:
- Clearly shows outstanding balance (₹0 in this case) along with status (“All fees paid”).
- Fee Breakdown:
- Detailed view of tuition, library, and activity fees with total amount and payment status.
- Multiple Payment Options:
- Supports UPI, Net Banking, and Card payments for flexibility.
- UPI QR Code Integration:
- Allows quick and secure payments by scanning the QR code using apps like GPay, PhonePe, or Paytm.
- User-Friendly Layout:
- Organized sections for payment summary and payment methods ensure smooth user experience.
- Real-Time Payment Status:
- Updates payment completion instantly for transparency.

Purpose:

This module simplifies the fee payment process for students while ensuring clarity, convenience, and secure transactions.
